

XCarrier Cloud-Service

(Software as a Service)

- The XCarrier solution suite is now available in the cloud alongside the previous software license version (On-Prem).
- The next-generation XCarrier cloud service is designed to deliver applications faster, more securely and more cost-effectively to the SME market worldwide.
- Structured data from XCarrier is available to all XCarrier modules, customer needs and local systems at any time via standardized interfaces.
- Access to the XCarrier Cloud Service is granted easily via an up-to-date web browser and based on encrypted data connection - saving time, money and resources.
- The underlying cloud architecture enables the use of a high-performance, completely secure and redundant platform with data storage and data security worldwide.
- Data storage and data security are maintained worldwide in accordance with the applicable local data protection regulations.

Telecom application

XCarrier provides all the necessary applications to ensure wall-free operation of a wholesale telecom business.

Protection & safety applications

XCarrier offers a range of efficient and effective security applications for secure voice operations.

Billing & clearing applications

XCarrier includes all commercial applications to generate a secure and positive business.

Customer added value

XCarrier Software Suite as a cloud service is the tailor-made solution for demanding companies looking for more efficiency in their daily telco business.

- XCarrier produces SOX-compliant, traceable and auditable security and data retention.
- XCarrier is ideal for regulated markets with the highest demands for data storage and data processing.
- The modular structure of XCarrier enables generic and at the same time extremely specific applications. These can be expanded dynamically and used directly.
- Go-to-market times for new and targeted offers are significantly accelerated by the appropriate XCarrier platform deployment.
- The XCarrier solution can be operated by a small number of specialized personnel with maximum efficiency and unbeaten performance and effectiveness.
- XCarrier automates all your important processes and workflows optimally and productively.
